En Tráficos Levante trabajamos diariamente para ofrecerles una amplia gama de servicios con una atención personalizada y con garantías, de entre los servicios que ofrecemos destacan: <ul> Import-Export: Tráficos de Levante offers international freight forwarding services and advice for clients on import and export traffic. This includes a wide range of freight services with the most important shipping companies, scheduled container services and cargo consolidation to and from the most important ports of the world.
    Sea Transport: Tráfico de Levante works with the world´s major ports. We track our clients goods, keeping them informed about the situation and arrival of their shipments.
Links to shipping company sites are available to our clients through our website,offering them real time access to their shipments.   Ground Freight: Road transport is available for containers with combined TECO service from our clients warehouse to major Spanish ports. Truck transport is available from our clients warehouse to any European destination.
    Air Freight: We offer both domestic and international air freight services for imports as well as exports when the merchandise is urgent. We carry out all the necessary formalities such as customs clearance and preparation of documents.   Customs: We offer our clients an effective management service dealing with Spanish customs which favors our import and export customers when sending and receiving cargo. We also provide advice, certification and any type of procedure relating to the health department, the chamber of commerce, official inspection services (soivre), etc.   Cargo Consolidation: Balearic and Canary Islands, Ceuta and Melilla: Storage and Cargo handling is a service we offer when a client&#65533;?s goods alone do not fill an entire container. In this case we group various clients&#65533;? goods together in order to offer more economical pricing and weekly departures to the Canary
Islands and 3 weekly departures to Ceuta, Melilla and the Balearic Islands.   International Cargo Consolidation:Storage and Cargo handling is a service we offer when a client&#65533;?s goods alone do not fill an entire container. In this case we group various clients&#65533;? goods together in order to offer more economical pricing and weekly departures.   Storage: Our warehouses are located in el Polígono Industrial Oeste (the western warehouse district) in Alcantarilla (Murcia) where we have 1,500 m2 of dry storage at your disposal for proper loading and unloading, receipt, control,
storage and subsequent preparation of loading, handling, labeling, output
control and expedition of goods.
   Moving: We are specialists in lashings and securing cargo. We move full containers with door to door delivery and consolidated containers with door to customs warehouse delivery for individuals who want to ship their personal belongings,vehicles, etc. We carry out shipments to the Balearic and Canary Islands as well as to any other destination around the world.
    Quality: Tráficos of Levante has implemented and certified a quality control system under regulation UNE ISO 9001: 2008. This way we can guarantee the best service to all our clients, analyzing

processes and reducing costs.
